Why Piki Market?

01. What is Piki Market?

WHY PIKI MARKET?

Shop Safely and Conveniently with Blockchain

From travel to everyday essentials, find everything you need in one place with safe and secure blockchiain payments.

Various Product Types

Purchase a variety of physical and digital products in one place.

Flexible Payment Options

Choose your preferred payment method freely. (ACORN point, credit card, mobile payment, etc.)

Blockchain Record

Transaction history and related information on are securely recorded and stored on the blockchain, making forgery impossible

Convenient Delivery Settings

Schedule delivery to receive your items at your preferred time.

What is the benefit of a blockchain-based platform?

Using NASTA-602 blockchain, products are given a "digital certificate of authenticity. Simply put, files like images, videos, and audio are uniquely recorded on the blockchain, making them one-of-a-kind.

The product's **ownership** and **transaction history** are securely **stored on the blockchain**, Allowing verification of the original creator and **preventing any alteration or counterfeiting**.

Piki Market Process

Shop easily and securely on Piki Market, a blockchain-based shopping platform.

To buy or sell products on Piki Market, you first need to **sign up**.

Ready to explore Piki Market?

02. Sign-up

2. Sign-up

First, enter your **email** and input the **6-digit verification code** sent to you. Once verified, create a password and confirm it.

Agree to the **terms of service** and **privacy policy** to complete your registration. A wallet will be automatically created upon signing up.

SIGN UP

By signing up as an XTRION integrated member, you can use Piki services including Piki without registering as a separate member. When you sign up for membership, a wallet is automatically created.

Detail

Detail

2-1. What is the "Wallet"?

A Digital Wallet is a service that helps store, securely trade, and make payments for digital assets (virtual goods) on Piki Market.

The Wallet address, or public key, is visible to everyone, but knowing it doesn't grant control over wallet. Conterol is only possible with the private key(master key), making it **crucial to protect your key**.

03. Home

3. Home

The main page displays **Piki Best, Piki Promotions**, and **Piki Digital** tabs, making it easy to find products.

You can also quickly search for desired items by **category**.

3-1. What are physical and digital products?

Products on Piki Market are categorized into physical and digital types.

Physical products: These are tangible items you can own and receive through delivery. –just like the physical products you're familiar with.

Digital products : These are based on **digital files**, such as image files assigned with a unique ID. All information such as details, distribution process(sales history), and ownership are securely stored. They are non-fungible digital assets, offering rarity and authenticity.

04. My Piki

4.My Piki

Clicking the person icon in the top-right corner of the main page takes you to My Piki (My page). Here, you can access your wallet, check orders/ shipping, view your cart, and manage your personal information.

06. Sale

6. Product Sales Process

The sales process follows these steps:

If you've switched to a seller account, you can **register products** for sale on Piki Market. After registration, the products will **be reviewed and approved** by the administrator.

Once approved, you can list the products for sale, and they will be delivered to customers.

6-1.What types of products can be registered?

Piki Market supports two types of products: Physical / Digital And allows for two creation formats: Single / Bulk

All registered products are recorded on the blockchain.

6-2. Where can I register products?

In the List& Manage tab, you will find options for Add New/Promotion Registration/Product Management. To register a product, click the **Submit** button in the **Add New** menu.

6-5. Promotion Registration

Promotion is a special deal created by the seller. You can register a promotion in the List& Manage tab. Click Add Product to include the items you want in the promotion, then set main image, banner image, and duration.

6-6. Product Approval

After completing product registration, **administrator approval** is required for sales. Go to the **Pending Registration** tab on **My Page**, click the **More** button at the top right of the main image, and select **Approval Request**.

6-7. Sales Listing

Once your product is approved by the administrator, you need to list it for sale. Click the More button at the top right of the product's image and select Sell. This will make the product visible to buyers.

6-8. How can I cancel the sale?

To cancel the sale of a listed product, go to the **Registered Products** tab on the **My Page**. Click **More** button at the top right of the product's main image and select **Cancel Sale**.

07. Fee

7. Is there a fee?

For physical products, there are no listing fees or creator royalties. Keep 100% of your sales revenue! For digital products, the final amount received by the seller is calculated by deducting the total fees, which include listing fees and creator royalties, from the product price.

1) Listing Fee (Digital Products Only)

All transactions, including trading networks, are carried out through the blockchain network. The listing fee is a fee charged when registering an product for sale on the blockchain network. When the sale is completed, the fee is deducted along with the creator's royalty for settlement. The fee may vary up to 10%. and any changes will be announced on the service screen later.

2) Creator Royalty (Digital Products Only)

Creator royalty is a commission given to the creator who originally created a traded work, rather than being a service. The creator can set this commission when creating the work, and they will receive the royalty payment in proportion to the rate they have set when the work is sold. Creator royalty can be set between a minimum of 0% and a maximum of 30% when creating the work. Creator royalty can also be referred to as creator commission or secondary transaction commission.

Thank You.
